WORK EXPERIENCE

Chief Technology Officer
Epower.ng ⬈

04/2018 - Present
Epower transforms ambitious brands through the thoughtful application of design & technology.

Achievements/Tasks

- Improved projects scalability and maintainability up to 99% by introducing modern web technologies and frameworks like Git, React.js and Material UI design system to the existing team.
- Developed the Mobile App for Sweden's largest NGO blog (movendi.ngo) using Flutter which allows up to 80% of their users access their articles anywhere on their mobile devices (Android, iOS).
- Developed a next-generation HR tool (polivoice.work) using Laravel PHP RESTful API, React.js Frontend and Material UI design system. This tool analyzes feedback anonymously that helps companies improve their workplace which comes with 81% greater profitability.

Technical Director (Volunteer)
Zero to One ⬈

05/2018 - Present
ZeroToOne Foundation is a global non-profit working to solve the problem of unemployment and lack of good skill labour in Africa.

Achievements/Tasks

- Developed the official website which publicized the brand by close to 80% across countries in Africa.
- Initiated and orchestrated a yearly social media display picture generator to motivate participants of the fellowship which fostered up to 1,000 new applications.
- Conceptualized and developed a yearly certificate generator to certify each qualifying participant of the fellowship which strengthened the brand's reputation and that of the participants.
